Update on Flat Rates for Whistler-YVR Limousine Trips

In an [Industry Advisory of October 15, 2014](#), the Board announced its plan to implement minimum flat rates for limousine trips between Whistler and YVR. The planned implementation date was stated as November 12, 2014. Some licensees have expressed concern that this start date would affect services pre-sold under contract.

The Board will include a transition period in any minimum flat rates rule that it implements. This would allow previously-approved rates and rules to apply when they are in a written contract or quote before a new Board rule takes effect.

The deadline for comments remains October 31, 2014. Comments and suggested adjustments may be sent to the Passenger Transportation Board at:
