Special Authorization List

We have updated our list of licensees with a Special Authorization. Licensees are listed by “category” and grouped by regional district. We have four categories:

1. Taxis
2. Limousines
3. Inter-city Buses
4. Shuttles

We have included more detailed information about vehicles and vehicle types. For example, for taxis we include the number of accessible taxis that the Board has authorized for a company¹. For limousine companies we have included the number of sedan limousines that a company has authority to operate².

Due to limitations on our database, these lists were compiled manually. If you have a comment about the lists or notice an error, please send an e-mail to: ptboard@gov.bc.ca

Our goal is to update the lists twice a year.

Webpage | [Operators](#)

¹ Taxi companies may operate more accessible taxis than authorized. They cannot operate more sedans or non-accessible vans than authorized.

² There may be discrepancies between the number of vehicles a company is authorized on its licence to operate and the actual number of vehicles it is operating. The licence specifies “maximum” fleet size.
